Summary — Data Science & Analytics Enthusiast and Incoming Master of Data Science Student at UQ (July 2026), selected as one of the top performers from the department. Strong foundation in Python, SQL, and Data Visualization, with expertise in managing real-time datasets and translating complex data into strategic insights. Proven track record in applied AI/ML research, financial analytics, and cross-functional leadership.

Experience & Leadership

- YUVA Club, VIT Chennai** — *President* 2025 – 2026
– Led 150+ members; organized 25+ events including National AI Hackathon (YUVA AI-THON) and "Thitikum Deepavali" (major social initiative serving 2,000+ orphan children).
Awarded "**Best Marketing Lead**" prior to Presidency (alongside fellow Marketing Leads); currently steering the chapter to win "**Best Social & Outreach Club**" (among 150+ clubs) and "**Best Collaboration Catalyst**" (across 200+ Yi Yuva clubs).
- Virtusa Consulting Services Pvt Ltd** — *Intern – Technology (AI/ML & Data Analytics)* May 2025 – Jul 2025
– Completed structured corporate internship focused on foundational AI/ML concepts and analytics workflows.
- Thanthi TV** — *Election Data Analytics Intern* June 2024
– Managed real-time datasets supporting reporting and visualization for live broadcast operations.
- SurgTest** — *Data Analyst Intern* Mar 2026 – Apr 2026
– Supported data analytics operations; performed data cleaning, querying, and reporting using tools such as PostgreSQL, Metabase, and Zoho Analytics to deliver actionable business insights.
- STEMTech (VNEST, VIT)** — *IoT Analytics Intern* Dec 2024 – May 2025
– Worked on IoT-based data collection and analyzed sensor data to validate performance and support optimization.

Publications & Projects

- TRUEGUARD: Toward Trustworthy Large Language Models** IEEE Transactions on AI — 2026
– Authored survey on LLM hallucinations; proposed a unified framework for detection, explainability, and mitigation.
- Navigating IT Service Management: Frameworks & Analytics** IGI Global Scientific Publishing — 2025
– Co-authored book chapter exploring cloud computing scalability, cost optimization, and ITSM frameworks.
- FINN-PINN: Fundamental-Informed Physics Neural Network** Advanced ML Project
– Built constraint-aware model embedding domain rules into neural training for stock prediction using PyTorch.
- AI Resume Analyzer** NLP & Document Intelligence
– Intelligent resume parsing tool using NLP (Python, Streamlit) to extract skills, experience, and provide scoring.
- Automatic Attendance System Using Face Recognition** July 2024
– Developed Python-based system using OpenCV and automated attendance storage using Pandas.

Education

- Vellore Institute of Technology, Chennai**
Integrated M.Tech in Computer Science Engineering (Business Analytics) 2022 – 2027
- Prince Srivari Senior Secondary School (CBSE)** Chennai
Class 12th: 91% — Class 10th: 94%

Achievements

- **National Impact:** Led a 150+ member chapter to secure Best Social & Outreach Club (among 150+ college clubs) and Best Collaboration Catalyst Award (among 200+ Yi Yuva clubs).
- **Internship Excellence:** Completed multiple internships prior to graduation (Data Analytics, IoT Analytics, Corporate Technology), strengthening corporate readiness.

Core Skills & Certifications

- **Data Analytics & CRM:** Customer and stakeholder data analysis, data cleaning and validation, KPI tracking, reporting, business insights.
- **Technical Skills:** Python (Pandas, NumPy, PyTorch, Streamlit), SQL (MySQL, PostgreSQL), NLP, MS Excel, ML fundamentals, visualization, Metabase, Zoho Analytics.
- **Tools & Platforms:** Python, Excel, OpenCV, Tkinter, Git, Cloud basics.
- **Certifications:** Blockchain Development (MindLuster), Cloud Foundations (Great Learning Academy), Flutter for Web Developers.
